

DEBMALYA SARKAR

Strategy · Product · Data · Turning ambiguous problems into measurable impact

Ann Arbor, MI · (814) 954-2547 · debss@umich.edu · LinkedIn · Portfolio

SUMMARY

Product-minded strategy consultant with 4+ years across AI products, enterprise analytics, and workflow transformation. Combines empathy-driven decision-making, discovery, prioritization, and cross-functional execution to turn problems into measurable outcomes.

EXPERIENCE

Purdue University

Jul 2026 – Present

Product Consultant – Veterinary Diagnostics

West Lafayette, IN

- Partner with a veterinary diagnostics expert to define product strategy and phased roadmap for an intelligent workflow platform connecting LIMS, instruments, robotics, and computer vision.
- Lead customer discovery with diagnostic laboratories across the U.S. to map workflows, uncover bottlenecks, and identify opportunities to standardize operations.

University of Michigan, Ross School of Business

Jun 2026 – Present

Product Consultant, Customer Discovery & Storytelling Tool

Ann Arbor, MI

- Building a verbal AI interview coach for Ross courses (IPD, Creativity & Product Development, Storytelling for Innovators) to help students practice open-ended customer discovery interviews.
- Evaluating build-versus-buy tradeoffs across voice AI platforms; designing the pedagogical feedback loop grounded in the Mom Test framework and a five-question taxonomy.

Deloitte USI (Ball Corporation), Strategy & Analytics

Sep 2020 – Aug 2024

Consultant, Product Support & Analytics

Kolkata, India

- Drove process improvements on an enterprise analytics platform serving 20,000+ users by analyzing ticket and usage patterns in Power BI, cutting average resolution time by 40%.
- Led development of AI-powered code copilots and document-summarization tools, accelerating code development by 30% and reducing documentation-review time by 40%.
- Re-engineered a legacy SQL data pipeline using Six Sigma methods, reducing runtime from 80 to 8 hours and unblocking downstream production decisions.
- As Scrum Master for a 10-person cross-functional team, increased sprint completion from 65% to 90% through backlog prioritization and stakeholder alignment.

Swiggy

Jan 2020 – Jul 2020

Analytics Product Intern

Bangalore, India

- Built and shipped ML forecasting pipelines using LSTM and Prophet across 500+ cities, reducing prediction error by 20% and informing real-time fleet-allocation decisions.

LEADERSHIP

- Impact Day Cluster Lead, Deloitte:** Led 100+ volunteers for CSR initiatives; coordinated weekly NGO visits to teach STEM and recorded audiobooks for deaf students.
- AI Club Head, Manipal:** Expanded club from 3 to 10 members; trained members on AI skills and delivered a working drone prototype.

PROJECTS

Tatter, Sustainable Fashion Product

Sep 2024 – Dec 2024

IPD Challenge Winner, Team of 5

Ann Arbor, MI

- Led product strategy for a gamified mobile app helping consumers extend clothing and gear lifespan; conducted 45 user interviews and built the product roadmap.
- Scoped to 3 high-frequency repair categories; shipped a working prototype that won the IPD Challenge.

Jobago.ai, B2B Go-to-Market Strategy

Jan 2026 – Apr 2026

Strategy Consultant

Ann Arbor, MI

- Developed a GTM strategy for an AI employment platform targeting banks as distribution partners; applied a Pugh matrix to prioritize bank segments.
- Crafted B2B messaging, value propositions, and pricing structures including per-user licensing and revenue share models.

QuiTam Copilot, Independent Project under UMSI

Mar 2025 – Present

Product & Strategy Consultant

Remote

- Led product discovery for a multi-agent AI legal product in a \$5B+ market, conducting 20+ attorney interviews and translating findings into a prioritized backlog.
- Owned technical product definition, optimizing Claude API prompts and managing context-window constraints to make build-versus-defer tradeoffs.

EDUCATION

University of Michigan

May 2026

M.S. in Information, Data Science Focus

Ann Arbor, MI

Manipal Institute of Technology

Jul 2020

B.Tech. in Computer & Communication Engineering, Minor in Big Data

Manipal, India
